

# Dinky Builder the Christmas gift that's lots of toys in one!

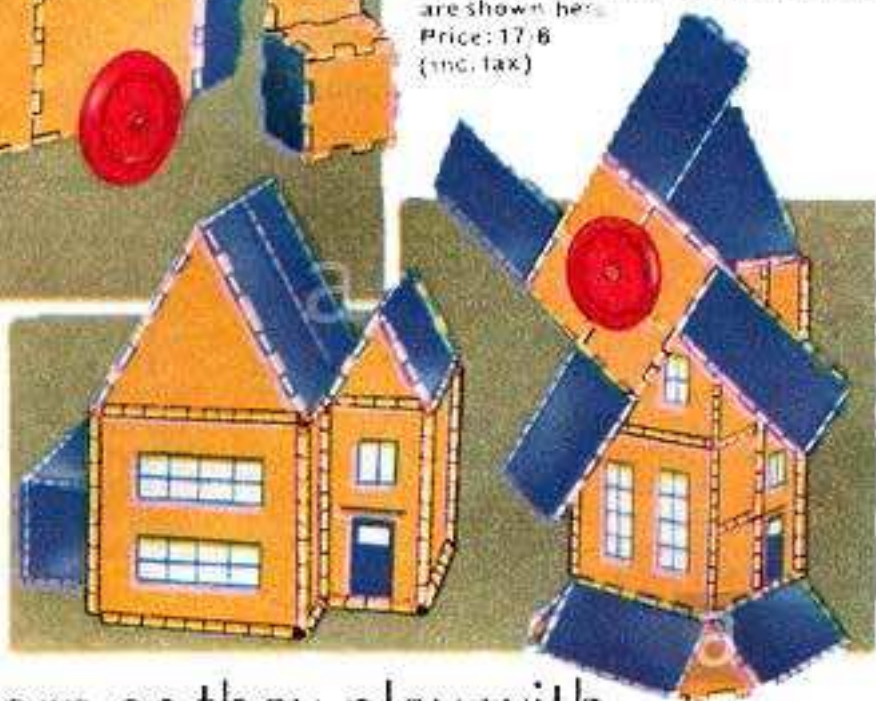

Young boys and girls love these exciting building sets. They're simple, fascinating and tremendous fun. With Dinky Builder Outfits they can make furniture, easy running wheel toys and dozens more models like those shown here—simply by hinging the metal plates together with the steel rods. And while they play, they learn to use their hands and brains with greater skill—a skill that will help them get ahead at school and at work.

THE BASIC PRINCIPLE OF DINKY BUILDER  
is to join the plates together with the rods.
