UNITED STATES PATENT OFFICE.

FRANK HORNBY, OF LIVERPOOL, ENGLAND.

DESIGN FOR A GIRDER-STRIP.

49,308.

Specification for Design.

Patented July 4, 1916.

Application filed June 3, 1915. Serial No. 31,997. Term of patent 14 years.

To all whom it may concern:

Be it known that I, FRANK HORNBY, a subject of the King of Great Britain, and a resident of Liverpool, England, (whose postoffice address is care of Meccano Limited, Binns Road, Liverpool, England,) have invented a new, original, and ornamental Design for a Girder-Strip, of which the following is a specification, reference being had to the annexed drawing, forming part thereof.

The single figure is a perspective view of a girder strip embodying my new design.

The design is characterized by the thinness of the material, by the presence of the broad parallel side bars having regularly spaced

circular apertures therein, and by the extended series of regularly spaced and arranged, straight, imperforate lattice parts which connect the side bars and are relatively narrow as compared therewith.

I claim:—

The ornamental design for a girder strip, as shown and described.

In testimony whereof, I have signed this specification in the presence of two subscribing witnesses.

FRANK HORNBY.

Witnesses:

E. A. TRIM,

THOS. B. WILGUS.
