

MECCANO®
ERECTOR®

MECCANO® ERECTOR®

Here they are! ERECTOR®, the most famous name in construction sets, continues its 80+ year tradition of high quality and versatility in 1994. New sets, new features, new models to delight a new generation of young builders... Look'em over!

P.2-5

NEW

JUNIOR

Brightly colored large parts for little fingers: the world according to ERECTOR® for children who have outgrown their building blocks. Each set comes in toolbox storage packaging and includes the uniquely designed "Tool Buddy" - a plastic screwdriver with an attachable ERECTOR® character. Once the model is built, the character can be detached from the tool and played together with the model. Full color step-by-step instructions make assembly easy and introduce children to elementary engineering concepts such as pulleys, wheels and axles.

P.6-7

STARTER

Starter ERECTOR® Sets are the ideal first step in the world of metal ERECTOR® Sets. Each set builds one model.

Parts can also be used in conjunction with other ERECTOR® Sets.

P.8-11

DYNAMIC

Dynamic ERECTOR® is the latest break-through in the world of metal ERECTOR® Sets. Each set builds 3 different models with new exciting features such as shock absorbers and/or electric motor.

P.12-15

BASIC

ERECTOR® Sets as children over the age of 30 probably remember it. Each set includes an introduction manual to the ERECTOR® construction system, full color step-by-step instruction booklets, an Allen key wrench system and enough metal parts to build from 15 to 51 illustrated models.

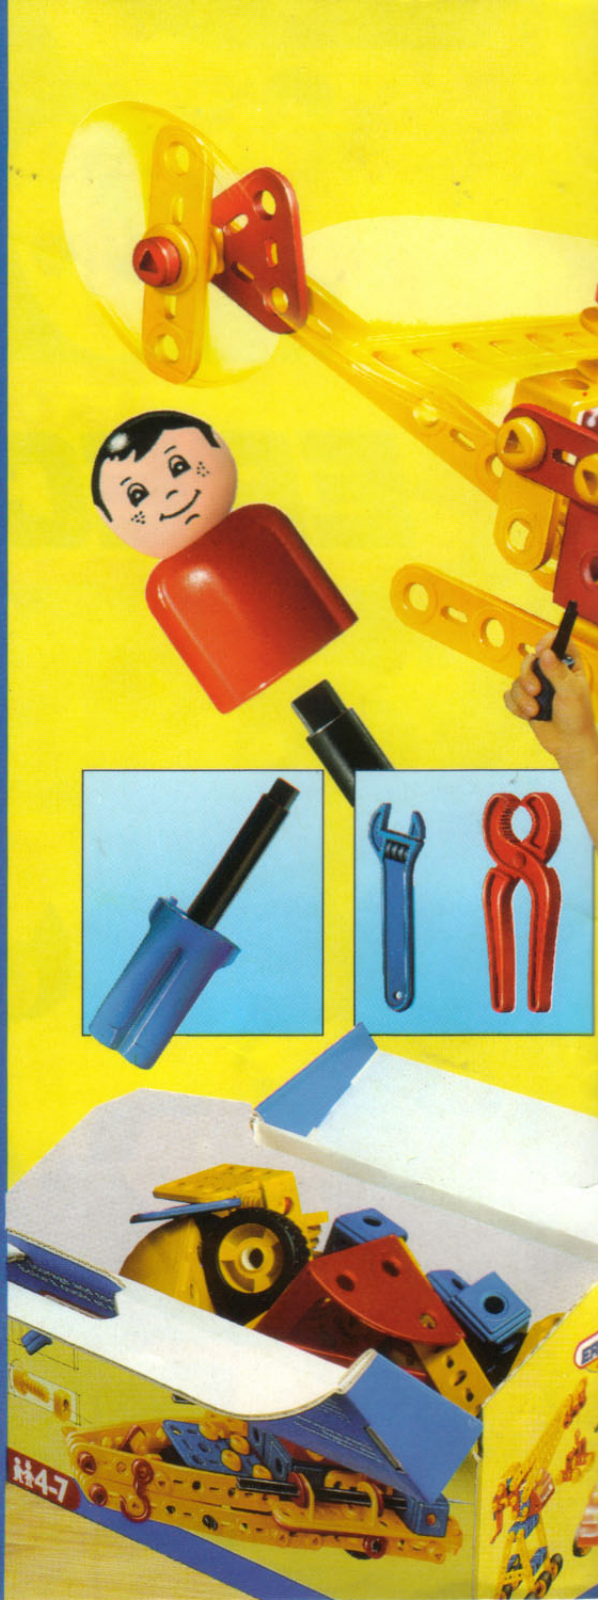

P.16-17

ADVANCED

For future prize-winning architects and Secretaries of Transportation aged 10 and up. There may be a limit to what you can do with these kits, but no one's discovered it yet.

P.18

ACCESSORIES

JUNIOR

**YOUNG ENGINEER
 SERIES**

JUNIOR 1310 :
 49 parts with instructions
 to build one helicopter,
 one hovercraft and one
 ultra-light aircraft.

JUNIOR 1315 : 48 parts with instructions to
 build 2 different planes and one ultra-light aircraft.

JUNIOR 1320 : 51 parts with instructions to build one
 buggy, one jeep and one all-terrain vehicle.

JUNIOR 1355 : 78 parts with instructions to build 5
 different models including a dump-truck, a construction
 truck, a buggy...:

4-7

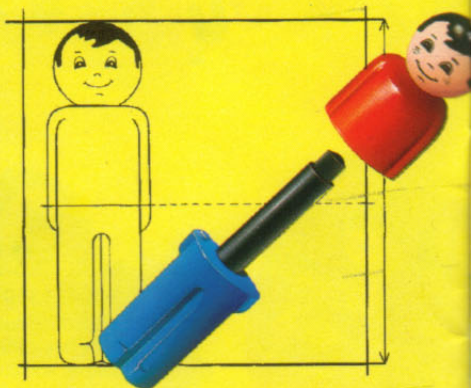

MECCANO®
ERECTOR®

JUNIOR

JUNIOR

JUNIOR 1350 : 95 parts with instructions to build 5 different models including a race-car, a flatbed truck, a pace car...

JUNIOR 1530 : 117 parts with instructions to build 10 different models including a bulldozer, a digger shovel, a construction truck, a motorbike, a race-car...

JUNIOR 1720 : 214 parts with instructions to build 20 different models including an airport, a tractor trailer, a jeep, a dragster, a roadster, a snow plow, a windmill...

YOUNG ENGINEER SERIES

JUNIOR 1540 : 180 parts with instructions to build 15 different models including a patrol boat, a fire truck, a crane, a tractor trailer, a tow truck, a jeep...

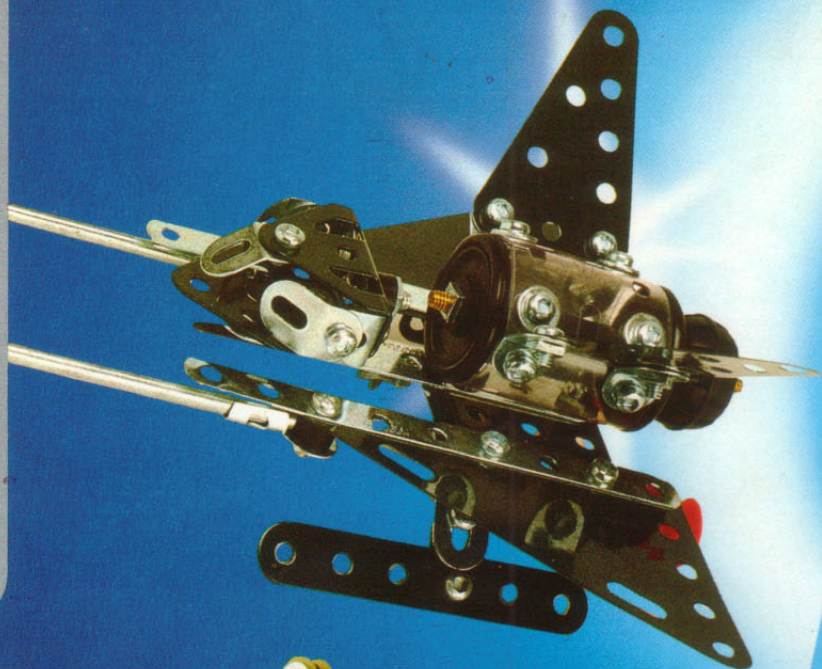

JUNIOR 1730 :
263 parts with instructions
to build 25 different models including
a train, a tractor trailer, a speed boat...

DYNAMIC

DYNAMIC 4036

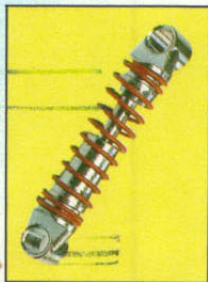

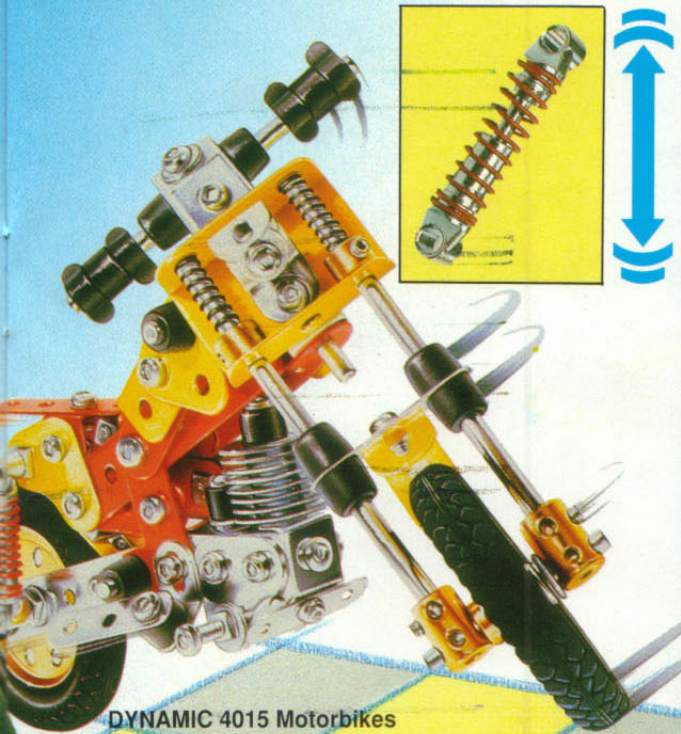

ELECTRIC MOTOR

**3-6
volts**

DYNAMIC 4036 Race cars

284 parts and a powerful electric motor are included.
Builds 3 different race cars: Indy Car, Dragster and Stock Car.

DYNAMIC 4015

DYNAMIC 4015

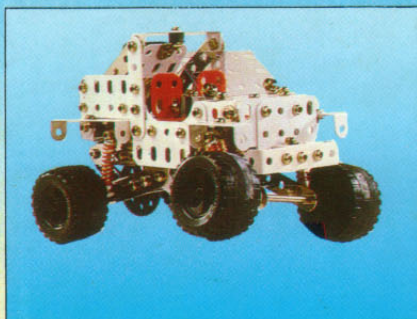

DYNAMIC 4036

DYNAMIC 4015 Motorbikes

276 parts and 2 shock absorbers are included.
Builds 3 motorbikes: Motorcycle, Desert Bike and Grand Prix Racer. Comes complete with kickstand and steering.

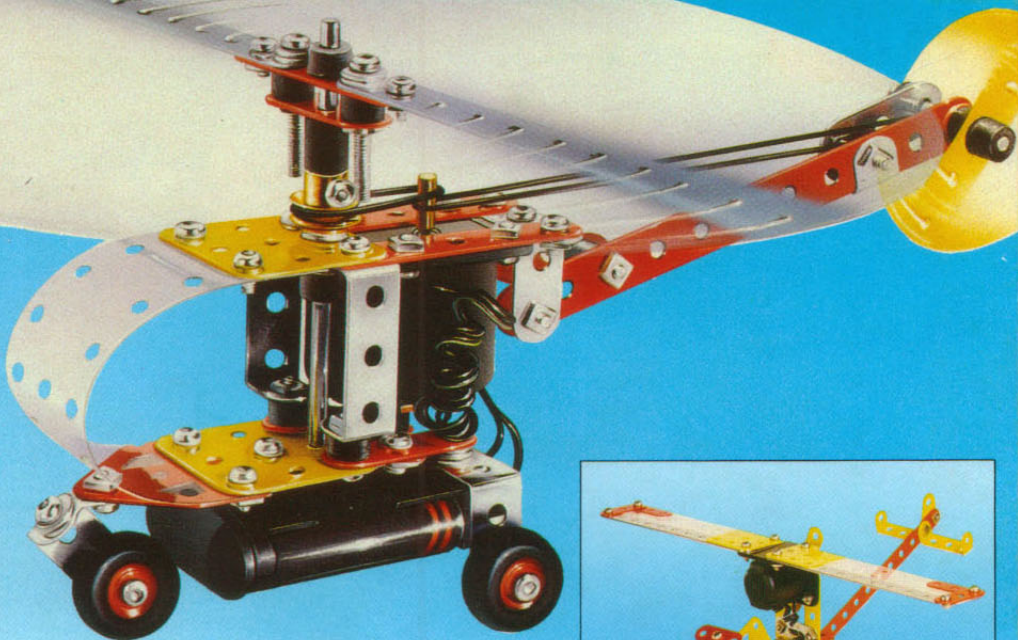

DYNAMIC 4065

DYNAMIC 4065

Batteries not included

DYNAMIC 4065 All Terrain Vehicles
417 parts. 4 shock absorbers and a powerful electric motor are included. Builds 3 different vehicles: Moon Explorer, Dune Buggy and Jeep.

DYNAMIC 4033 Aircraft
185 parts and a powerful electric motor are included.
 Builds 3 different aircrafts: Helicopter, Ultra-Light
 and Skymobile.

DYNAMIC 4033

DYNAMIC 4033

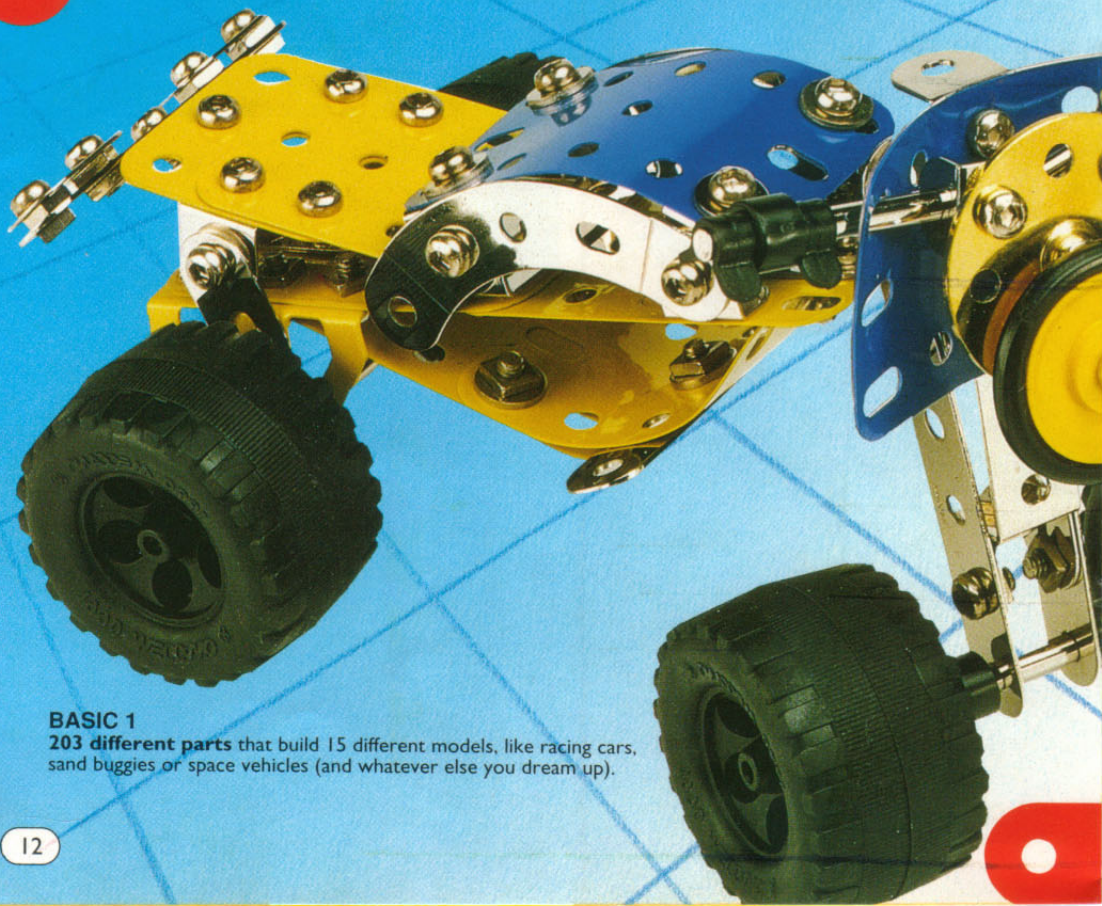

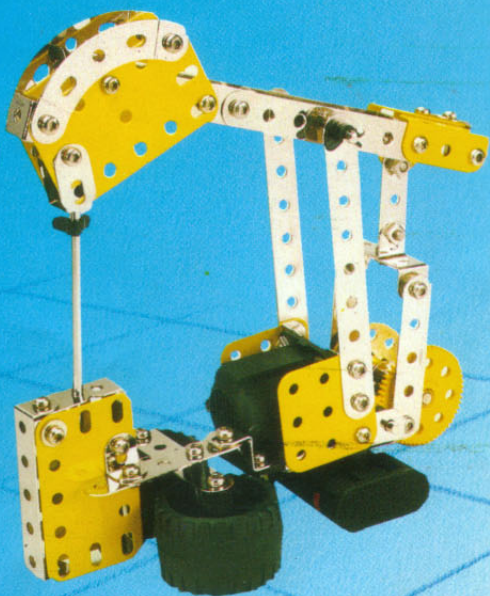

**Basic 2:
Parents' Choice 1991
Gold Award Winner**

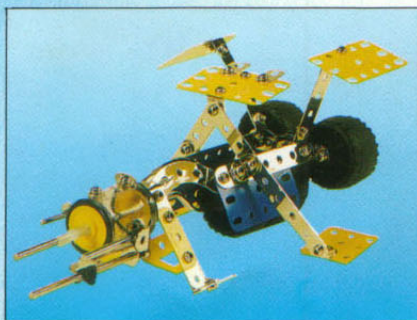

BASIC 2

With electric motor. **274 parts** and **27 illustrated models**, including a helicopter, oil drilling pump and a radar truck.

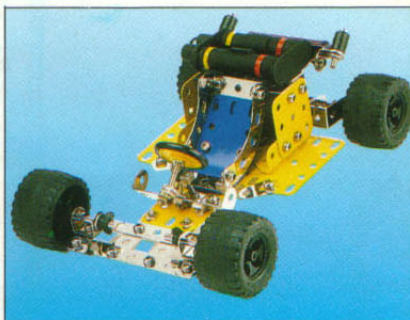

BASIC 1

203 different parts that build 15 different models, like racing cars, sand buggies or space vehicles (and whatever else you dream up).

BASIC 1

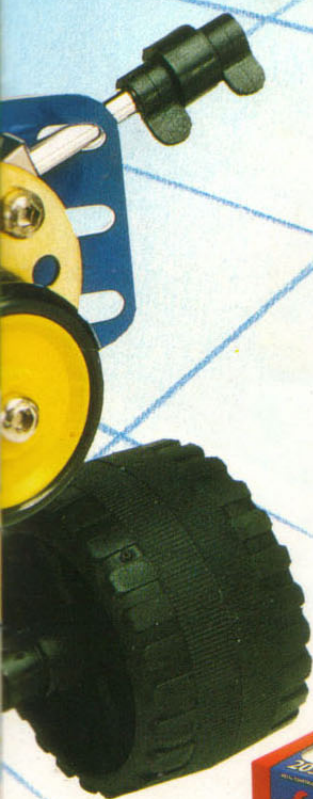

BASIC 2

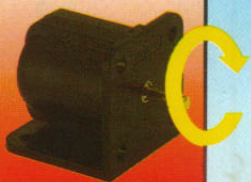

ELECTRIC MOTOR

**3-6
volts**

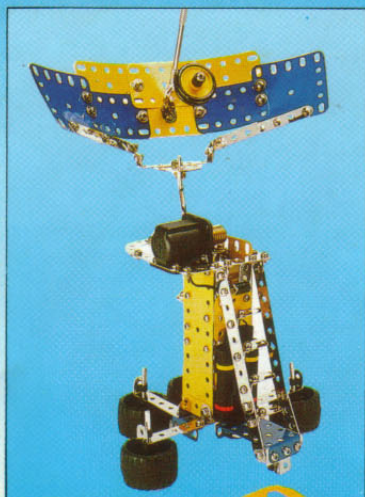

Batteries not included

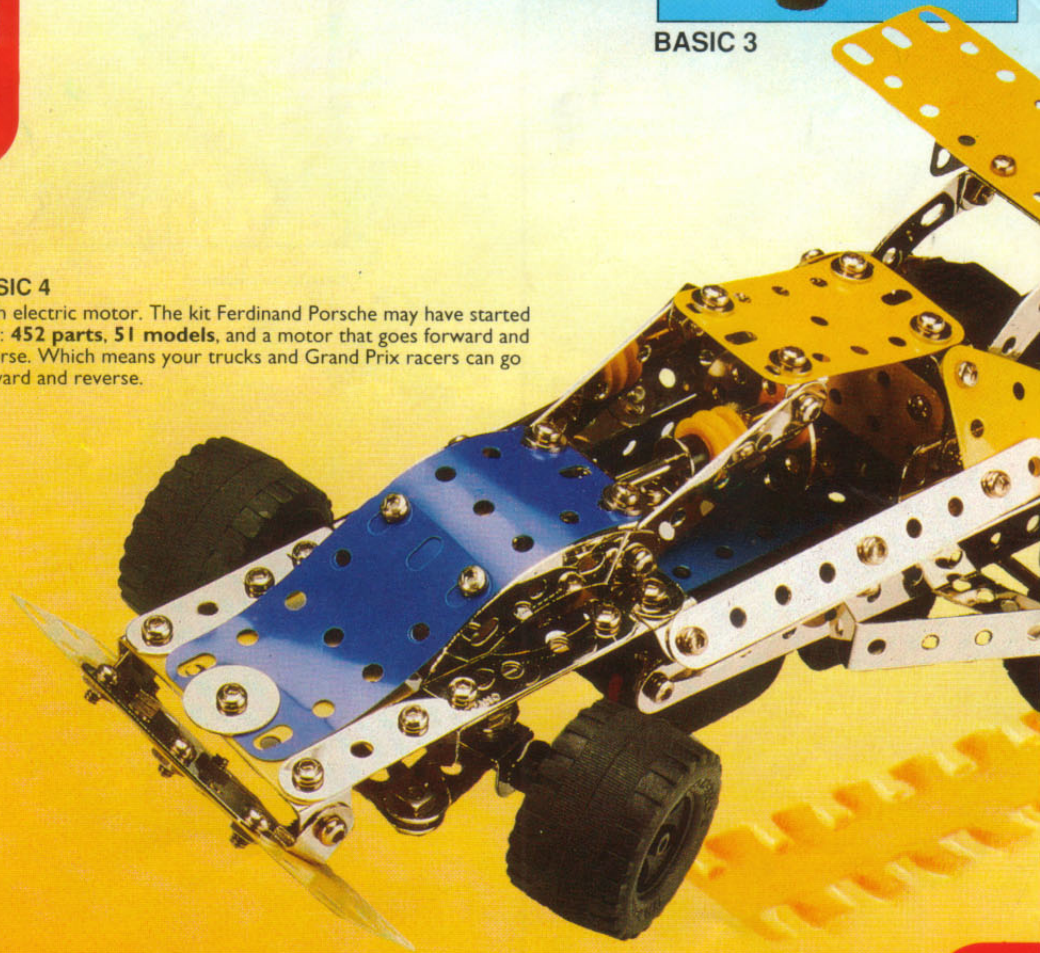

ELECTRIC MOTOR
**3-6
volts**

Batteries not included

BASIC 3
BASIC 4

With electric motor. The kit Ferdinand Porsche may have started with: **452 parts, 51 models**, and a motor that goes forward and reverse. Which means your trucks and Grand Prix racers can go forward and reverse.

BASIC 3

With electric motor.

The big brother to Set 2. **More parts (353).**

More models (39), and more of a motor (6 volt).

Build a tractor, dragster or an ultralight airplane.

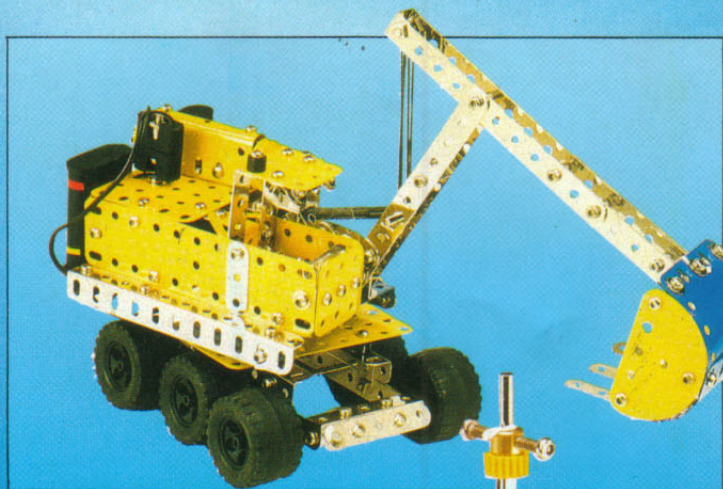

BASIC 4

10+

ADVANCED

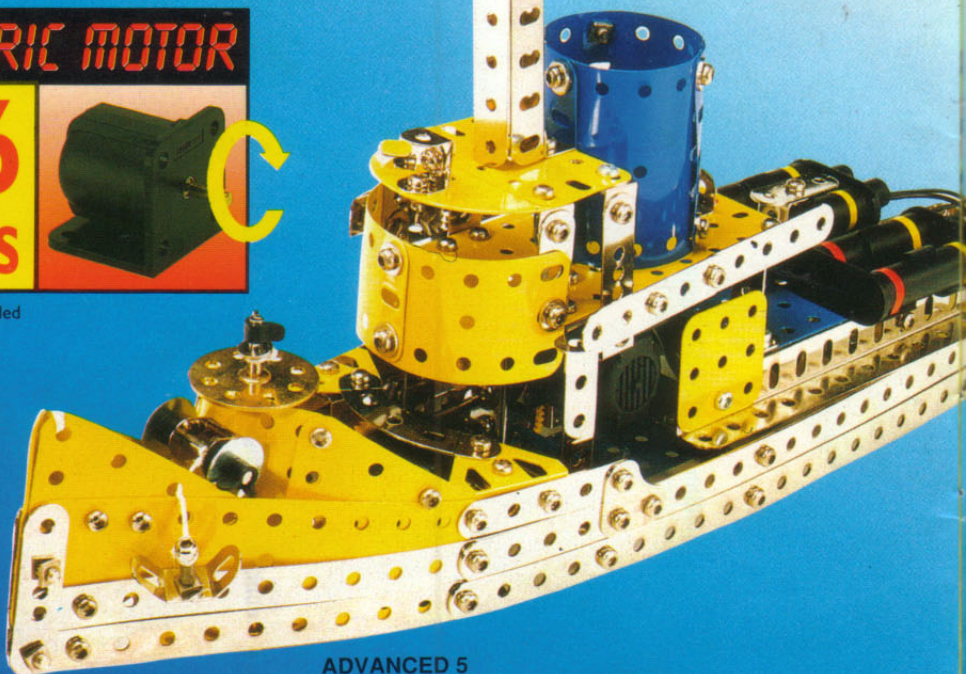

ADVANCED 5

ELECTRIC MOTOR

3-6
volts

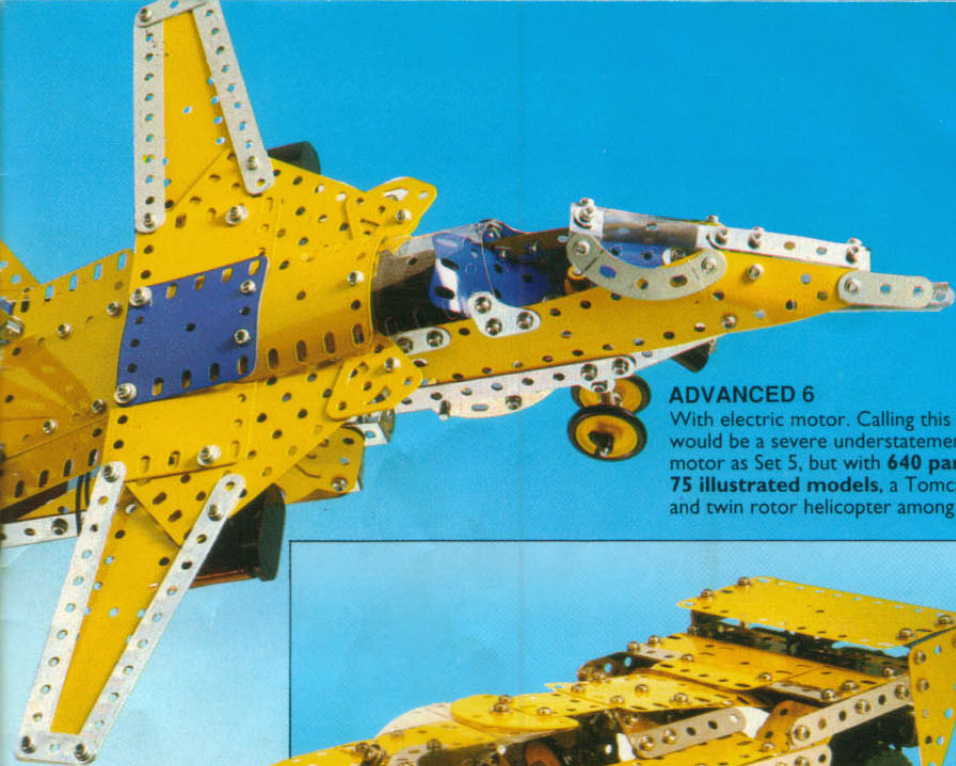

Batteries not included

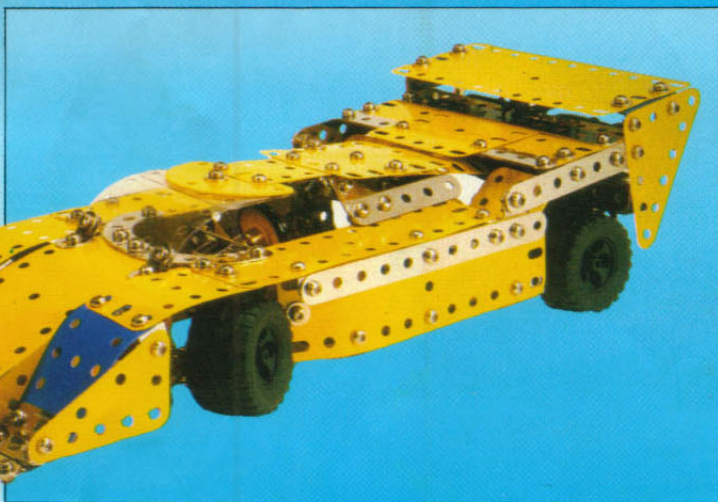

ADVANCED 5

With electric motor. Features gears and transmission, plus **556 parts**, enough to build **63 models**, including a mechanical digger and logging truck trailer. (But not including the ones you'll invent on your own).

ADVANCED 6

With electric motor. Calling this kit advanced would be a severe understatement: the same motor as Set 5, but with **640 parts** and **75 illustrated models**, a Tomcat jet plane and twin rotor helicopter among them.

ADVANCED 6

8+

ACCESSORIES

MOTOR MO Requires 4 AA size batteries not included.

THE FAMOUS
ERECTOR® SET:
IT'S AMAZING
WHAT YOU AND
A WRENCH CAN
DO TOGETHER!

MECCANO® ERECTOR®

This crane has been built with parts from both junior ERECTOR® sets and metal ERECTOR® sets. ERECTOR® plastic and metal parts are designed to be compatible. As your child grows, he can still use the junior ERECTOR® parts in conjunction with the more advanced metal ERECTOR® sets. ERECTOR® sets grow with your child: what a great value!
