#### Comment jouer avec votre robot ?

- Mettez le bouton sous le châssis en position ON.
- Spykee Mini Vox émet un « bip » et ses lumières clignotent. Il attend que vous l'appeliez par son prénom « Mini Vox ».
- Appelez-le ! Dites « Mini Vox » !
- Spykee Mini Vox reconnaît son prénom, son visage s'allume et ses lumières brillent de manière continue.
- Vous pouvez alors jouer avec Spykee Mini Vox en choisissant l'une des commandes du tableau ci-contre. Par exemple, dites « Avance » et le robot s'exécute.
- Attendez que le robot ait fini une action avant de prononcer une autre commande vocale.

#### Hibernation du robot

- Après 30 secondes sans commande vocale, Spykee Mini Vox baillera une fois et entrera en « mode veille 1 » (les lumières clignotent).  
→ Dites « Mini Vox » pour le réactiver.
- Après 15 secondes supplémentaires sans commande vocale, Spykee Mini Vox baillera de nouveau et entrera en « mode veille 2 » (les lumières s'éteignent).  
→ Mettez le bouton sur OFF puis sur ON. Dites « Mini Vox » pour pouvoir jouer avec Spykee Mini Vox.

#### Astuce:

Lorsque le visage du robot est éteint et que les lumières clignotent, il n'entend aucune commande vocale. Il faut alors dire « Mini Vox ».

#### Attention:

Le fonctionnement normal du produit pourrait être perturbé par des interférences électromagnétiques de forte intensité; si tel était le cas procédez à la remise à zéro de l'appareil en mettant le bouton sous le châssis sur « OFF » puis sur « ON ». Si le fonctionnement normal ne reprend toujours pas, utilisez le produit dans un autre endroit.
